

TOOLS AND TECHNOLOGIES: WORKPLACE BY FACEBOOK

We have significant experience implementing the following for our clients:

- Managed content integrations for client with Workplace, in order to metadata and image previews when posting links to a Workplace group.
- Ensured compliance, data security and governance by utilizing supported Compliance integrations.
- Enabled seamless sharing from enterprise applications to Workplace.
- Used webhooks to custom-integrate Workplace with corporate intranets as subscribers to Workplace events, ensuring real-time updates.
- Set up low-overhead yet high-security account provisioning and deactivation to provision Workplace accounts for client employees.
- Worked with the client to provide authentication with Single Sign On
